Electric Glass Kettle
LED lit, illuminated boiling

ID: 48366 SKU: BHR7423EU

[EU Version] Model: MJDSH05FD

1.7L large, reliable capacity Handles large gatherings with ease

For when you have friends over, serve the refills without interruptions.

Borosilicate glass High quality drinking water

With a high quality, durable material - get resistance to both cold and heat. Boil water with peace of mind, and no matter the circumstances.

LED light display Heating indicator

The intuitive LED light is built to notify you when the kettle is working.

2200W high power output Only 5 minutes needed for each boil

Heating water efficiently means no time wasted.

One-touch lid opening Easily opens with just one hand

The ergonomic handle enables opening with one hand, preventing steam burns and making pouring effortless.

Removable filter Better water quality

The high-density filter finely filters impurities for cleaner water and is removable for easy cleaning.

Advanced thermostat Uniform water heating

The thermostat with an upgraded thickened aluminium heating plate allows uniform heat distribution for healthier drinking water.

Quadruple power protection Safety for peace of mind

Specifications

Model	MJDSH05FD
