

Xiaomi handheld garment steamer

55198/BHR8269EU

Foldable design for storage

- The whole machine weighs about 770g and is easily ironed
- with foldable handle, small bag can also receive easily

Metallic soleplate with ceramic painting

- Aluminum die-cast soleplate coated with ceramic, fast heat conduction and constant temperature
- A secondary vaporization chamber is formed between the soleplate and the engine which is fine and not wet when ironing

Fast preheating

- 26s can complete the preheating, need not wait for a long time
- One button out of the steam, finger release the button to stop sending steam to avoid residual steam burns

Continuous steam

- The 30 kpa supercharging technology helps to iron clothes easily

Removable water tank

- The 160ml large water tank can iron 5-6 pieces of clothes at one time

Dual-purpose horizontal & vertical ironing

- Hanging ironing is suitable for light clothes from top to bottom
- Horizontal ironing is more suitable for heavy clothing
